

English Version

Tina Imhof

I was born in 1976 and live with my family in Ehrendingen. As a medical masseuse with a federal certificate, I have been managing two practices in Ehrendingen and at the Paul Scherrer Institute in Villigen for almost 25 years .

In 2013, I further established my own workshop in Ehrendingen as an artistic main pillar under the label BsundriX. I give creative courses und until 2022 I opened a small café in my studio on Wednesday mornings in the summertime.

For me, creating art is a balance to my job as a medical masseuse. The hours spent in my studio are my retreat and my oasis. For my abstract paintings, I compose layers of colour, structure, paper, lettering and much more.

I also like to experiment with photographs from my wanderings through different cities. Rhythmic elements, diffuse light situations, specular reflections or people in motion: I take pictures with my camera, edit them on the PC und create in my studio new visions in combination with print, photography and painting..

I am delighted to be able to show a cross-section of my work at the Ramada Hotel du Parc in Baden.

You are welcome to visit me in my studio in Ehrendingen for further impressions.

I am looking forward to an entry/feedback in the guestbook. Thank you for your visit.

Kind regards,

Tina Imhof
